**The American School of Valencia believes that a high quality and nurturing Preschool education taught primarily in English is critical for ensuring young children have the language exposure, developmental support and social experiences needed to build the foundations for a successful educational journey and multilingual future. ASV provides a warm and respectful environment focused on the development of students who are future ready. English is the primary language of instruction.**

For families who value cultural diversity, multilingualism and a rigorous learning environment where each child's interests are nurtured and their talents developed, we invite you to come Experience the ASV Difference. If your child was born in 2018-2020, please join us for this special opportunity to learn more about our unique programs, visit our beautiful classrooms, tour the campus and meet our Preschool staff. Childcare will be provided.
